

## COMMUNITY RESOURCE PERSONS AND VOLUNTEERS

The board recognizes the valuable resource it has in the members of the school district community. When possible and in concert with the education program, members of the school district community may be asked to make presentations to the students or to assist employees in duties other than teaching.

The board of education believes that the use of volunteers within the school program enhances the educational process not only for students but also for the community. The use of volunteers provides additional support personnel in the classroom, promotes community-school cooperation in facilitating the learning process, increases community support, and provides for individuals who have expertise in various areas to be used as resource persons.

The use of volunteers is encouraged and promoted through the central administration office and the local attendance center. Volunteers are screened at the local school level and must be acceptable to the administrator. A criminal records check shall be conducted on volunteers on a random basis. The assignment of volunteers is done by the principal or designee. The continuation of the services of a volunteer shall be at the principal's discretion. Accountability of the program shall include accurate record keeping at the local school.

Volunteers are bound by the same code of ethics, district policies and regulations as the professional staff.
