- Educating our youth is a responsibility of the entire community carried out through a collaborative effort. The primary goal of a public education is to prepare all children to become contributing members of an ever-changing multicultural and global society.
- All children should be provided a rigorous and engaging curriculum designed to develop their full potential as life long learners and prepare them to continue their education, pursue a vocation and become contributing members of society.
- Learning will be enhanced by adherence to an integrated curriculum that promotes continuity and the cumulative acquisition of skills and knowledge from grade to grade and from school to school to serve the needs of all children.
