

STUDENT PRODUCTION OF MATERIALS AND SERVICES

Materials and services produced by students at the expense of the school district are the property of the school district. Classroom teachers will determine if instructional projects developed by students at the expense of the school district will remain the property of the district or become property of the student. Materials and services produced by students at the student's expense, except for incidental expense to the school district, are the property of the student.

It is the responsibility of the superintendent (or designee) to determine incidental expense.
