

SCHOOL FOOD PROGRAM

The school district will operate a school food program in each attendance center. The school food program services will include meals through participation in the National School Lunch Program. Students may bring their meals from home and purchase milk or juice and other incidental items.

School nutrition program facilities are provided to serve students and employees when school is in session and during school-related activities. They may also be used, under the supervision of the Director of Food Services, for food service to employee groups, parent-teacher meetings, civic organizations meeting for the purpose of better understanding the schools, and senior citizens in accordance with law and board policy.

The school nutrition program is operated on a nonprofit basis. The revenues of the school nutrition program will be used only for operation or improvement of such programs. Supplies of the school nutrition program will only be used for the school nutrition program.

The board will set, and annually review, the prices for school nutrition programs. It is the responsibility of the superintendent to make a recommendation regarding the prices of school nutrition programs, in accordance with federal and state law.

It is the responsibility of the Director of Food Services to administer the program and to cooperate with the superintendent and appropriate personnel for the proper functioning of the school nutrition program.
