

Concurrent Enrollment, Advanced Placement and CCIR

	Who Teaches It?	Where Is It Taught?	High School Credits	College Credits	Enrollment Requirements	How Does It Figure Into My GPA?	What Does It Cost?
Concurrent Enrollment Courses	CHS Teachers	CHS	Credits given in the subject area of the course on a 4.0 scale	Credits given upon successful completion of course and paperwork through the college	Proficient in all areas of ISASP as required by Iowa Senior Plus Legislation	Will be figured as a regular course on a 4.0 scale	Nothing
Advanced Placement (A.P.) Courses	CHS Teachers	CHS	Credits given in the subject area of the course on a 5.0 scale. Transcript will say Honors if they don't take the AP Exam.	Colleges may award credit or advanced standing based on test score (typically the score must be at least at 3 on a 5 point scale)	Consideration of grades, ISASP scores, attendance, and commitment level	Will be figured on a 5.0 scale (A=5.0, B=4.0, C=3.0, D=1.0)	\$94 dollars to take each national AP exam
College Connection Individualized Registration (CCIR)	College Professors	Online or at the college	Credits given as a general credit	Credits given upon successful completion of course and paperwork through the college	Proficient in all areas of ISASP as required by Iowa Senior Plus Legislation	Is not figured into your GPA due to the course being graded as pass/fail. This is the beginning of your college GPA.	District will pay up to \$250 for the course unless the student fails. If failure, student is responsible for cost.

* Students should always check with the specific college and specific program of choice to verify if the college credits will transfer for college credit.

* Students must request a transcript from the college where they have earned their credit for review at the college of their choice, in order to be awarded college credit.

Please contact the CHS counseling office if you have any questions about Concurrent Enrollment, Advanced Placement and CCIR courses.
