

Robert and Julia Ann Hackett Scholarship

Robert and Julia Ann were born in Clinton in the 1920s. Both enjoyed their high school years and believed their school experiences prepared them for life. Julia Ann attended and graduated from St. Mary's School. Robert attended Clinton public schools through 11th grade, when he enlisted in the United States Navy during World War II. After high school, Julia Ann worked for the local telephone company. After the war, Robert attended the Kansas City School of Watchmaking. They were married and after a short time, they opened Hackett's Jewelry. They ran a successful business for several decades. Both Robert and Julia Ann loved and were proud of the Clinton community. They attributed their success to their education and would like to give back by offering a \$1000 scholarship to a high school senior.

This student must have attended Clinton Community Schools K-12.

This student may use the scholarship for a two year college, trade school or a four year college.
